AROUND the TOWNSHIP

One night last week the Japanese-American Citizens' League held an oratorical contest, the winner of which will represent the local group at a similar match in Alameda soon. The contest was held at the Japanese language school which all children of Japanese descent attend in the afternoons after public school. The heartening thing about the meeting was the fact that the youngsters, while fully conscious of the proud heritage from the homeland of their parents, are thoroughly Americans. Their speeches were well organized and they all showed an understanding of the fundamentals of American history.

Roland Bendel was looking through some Liberty magazines recently when he came across several issues in which the magazine had offered a \$10 prize for the best picture of vanished Americana. One of the prize winning pictures was that of a wall phone with a crank. "Wish I'd learned about that contest sooner," was Bendel's comment.

The Register has to apologize for two "boners" pulled recently. Last week we announced Gov. Merriam's visit to the township one week earlier than scheduled, and week before that, the printer dropped the figure 5 out of the \$15,000 expansion story about the Graham Mfg. Co. Maybe our ears didn't burn when Lester Burdick, Graham Co. superintendent, saw us after the error appeared. We haven't heard from the governor yet. We're almost scared to go to his meeting tonight.

H. L. Scott has done a lot for the community in an unassuming way. He is conservative in his views and makes no effort to force his ideas on anyone. Consequently, his suggestion regarding a union sanitary district as a possible solution of the garbage problem should be considered carefully.

Freight Wreck Blocks Canyon

NILES—A broken flange on a freight car wheel threw nine cars off the Southern Pacific track in Niles canyon early Wednesday morning, spilled the train's cargo of sand and barley into Alameda creek, delayed mails and train service and cost the railroad in the neighborhood of \$10,000 in damage. No one was injured.

The first hint of trouble Engineer H. R. Dunne had was the grinding of the heavy car wheels behind him as they chewed through the gravel and wooden ties of the roadbed after leaving the rails. Before he could bring the train to a halt, the cars had rolled part way down the bank toward the creek and several of them had been badly splintered. The locomotive stayed on the track.

The accident occurred on the right-of-way across the creek from the highway about four miles east of Niles. Roadmaster C. N. Myrick put a wrecking crew on the job and rapid headway had been made toward clearing up the debris by Wednesday afternoon. The early morning commuters' train from Stockton and the morning train from Livermore were both delayed, passengers and mail being rerouted via Martinez.

FUNERAL SERVICES HELD FOR J. S. DUARTE, PIONEER

NEWARK — Funeral services were held Monday for Joseph Silveira Duarte, 67, resident of this district for 87 years. Mr. Duarte was a member of the Centerville U. P. E. C. and father of Mrs. Mary Goularte, Mrs. Rose Cardoza, Mrs. Annie Costa, Mrs. Rosalie Santos, Louise Taylor, Mary Anna Salati, Mrs. Jennie Machado, Mrs. Theresa Souza, Mrs. Minnie Martin and Joseph and Anthony Duarte.

Mass was held in St. Edward's church and interment was in Holy Ghost cemetery.

NILES — Feature of Monday's meeting of the Chamber of Commerce was an address by William T. Lindsay, field executive of the Southern Alameda county division, Oakland Area Boy Scout Council, which includes the Hayward, Washington Township and Livermore-Pleasanton-Sunol districts.

Lindsay was guest of E. F. Glassbrook. Judge Allen G. Norris, who is active among sponsors of the boy scouts at Centerville, was an active listener at the meeting.

In his introductory remarks Lindsay said the recreational aspects of scouting were the least important; that character building and the making of future good citizens of boys in their formative years had justified the movement. He said careful check by juvenile authorities had disclosed that boy scouts had a five to one better chance of escaping conflict with the law for misdemeanors or more serious offenses, than boys who did not enjoy the scout training.

A number of instances were cited by the speaker, showing how boys who had already started as young gangsters were saved to become upright citizens, and in some cases, leaders. When he closed by calling on all business men to support the boy scout movement, Lindsay was loudly applauded. He said the Niles troop had become disorganized and that considerable work would be required to transform it into an effective unit.

Lindsay advanced as a scout within three bides of eagle. He has scouted in San Diego as a boy and later as an assistant scoutmaster; in Newark, N. J. as a scoutmaster, in Chicago as a scoutmaster, and as an assistant field executive and in Oakland as a scoutmaster where he left, in 1928 to become scout executive of the Petaluma area council.

It is from this position that Lindsay has been called, because of his wide experience, to take over the position of field executive of the Southern Alameda county area. He will maintain service offices for scouting in Livermore, Niles and Hayward, dividing his time between these areas.

Mr. and Mrs. Lindsay, with their family, a girl 12 and a boy 10, are establishing their home in Niles.

So highly esteemed was Lindsay at Petaluma, where he spent the last six years, he was tendered a testimonial dinner on the eve of his departure from that community for Niles. He was presented with a handsome eight-piece silver set by President Louis Cromwell in behalf of the scouts, scouts and cubs of the Petaluma area. A certificate of life membership in the scout veterans organization, composed of those scouts who have given 20 years of service to scouting, was presented to Lindsay, coming from James E. West, chief scout executive of the twelfth district.

Lindsay spoke again before the Junior Chamber of Commerce on Monday evening.

Peapickers Go On Brief Strike

IRVINGTON — A pea pickers' strike early this week at the Vargas & Smith farm held up picking operations for a time but failed to increase the general scale of pay.

News from the Tracy district that pickers there were receiving 30 cents per hamper inspired the Irvington pickers, who had been getting 22 cents, to walk out Monday morning. Fearful of trouble, the ranchers called the sheriff's office and nine deputies responded. After hearing the pickers' demands, ranchers said they were unable to pay 30 cents and would let the peas rot before paying it. They ordered the pickers to get to work or leave camp. A few left. The rest would neither leave nor work.

By Tuesday, most of the pickers had returned to work at the old scale.

Discontented pickers claimed they could not make more than \$1.50 daily at 22 cents per hamper. Others were more optimistic.

One young farmer from Oklahoma declared he and his wife often made as much as five dollars daily between them and that they always could be sure of making at least \$3.

"It beats fighting the drought in Oklahoma, anyhow," he commented.

Silk Prints and Chic Accessories

By CHERIE NICHOLAS

PRINTED silks headline the fabric story both for daytime and evening. Prints this season have an entirely new and refreshing look. New techniques and new patterns make current prints definitely 1936 and not carry-overs.

The latest treatment for daytime prints spaces tiny amusing motifs over the background. These miniature objects are frequently used instead of the dot theme. Animals are popular in patterns. Horses, and cunning dogs are decoratively delineated. Barnyard themes include roosters, tiny pigs, ducks and flying birds. Even fish and fowl have become print-conscious while butterflies dart over many of the modern silks.

As to flower prints, daytime florals are the most infinitesimal in years. Small bright florals scattered here and there, tiny bouquets and single flowers give silk prints a decidedly different look this season. Larger, more conspicuous flowers are reserved for afternoon and evening. Gorgeous florals on black, white or colored ground reflect exotic beauty.

The woman who diets will find the new vegetable and fruit prints quite to her liking. Radishes, carrots, beets, peppers, parsnips and tiny ears of corn thrive on silk crepe and silk shantung grounds. Fruit prints abound in the mode via apples, cherries, plums, strawberries and grapes in discreet and colorful patterns. The newer prints also include landscapes, newspapers, music notes, the alphabet and Roman numeral motifs.

Two prints are news. Printed silk taffeta is combined with silk crepe in twin prints for jackets and redingote ensembles. Silk mouseline coats match the design of the printed silk crepe frocks worn under them.

When one dares to think of the novelty and chic of the new silk prints in the same breath with the novelty and chic of the accessories that will be worn with them the situation becomes positively exciting. For example, jewelers are playing up to the charming and beguiling eccentricities of the new silks by creating vegetable and fruit dress clips, bracelets, buckles and various other gadgets of colorful enamel and other composition, sometimes using bright stone settings to convey the idea.

Gloves too have entered into the conspiracy, coming out in colors to match the bright hues of the prints.

The very attractive young women pictured are, as one sees at a glance, thoroughly fashion-wise as to what is modish in silk prints and flattering accessories. The seated figure is wearing a gown made of a silk print that spaces miniature butterflies instead of the traditional dot. The three butterfly bows of starched lace down the front of the buttoned jacket-blouse together with white roses on her cunningly veiled sailor of lustrous straw give a sprightly touch. Take note of the well-bred version of the leg-o-mutton sleeve.

The other high-brow lady has chosen one of the new pure silk vegetable prints for her gown. A beet is used as motif of the familiar polka-dot theme for her modish wine and white suit. A new and important detail is the flower treatment that places a carnation on each lapel of her tailored close-fitting jacket. The silk faille hat has a third carnation. The dress is a one-piece type.

GABARDINE SUIT

By CHERIE NICHOLAS

The perfect tailoring of this distinguished suit is achieved by the use of fine wool gabardine which neither wrinkles or stretches and is never too heavy for comfort. The jacket is subtly fitted. It has two slash pockets set in at the sides. The straight cut skirt has the popular inverted pleat at center front, so that the skirt is amply full for walking but keeps a slim silhouette.

SPORTS-TYPE SILK FASHION HIGHLIGHT

In the realm of sports-type silks many newcomers are listed. Silk surah is a fashion highlight this season. Designers are using it in monotonous, and in dotted or striped effects.

Silk shantung is also a great favorite. The printed silk shantungs are especially smart used alone or in combination with plain. White silk shantung is the chosen medium for many of the handsomest summer tailors shown. It tailors beautifully and launders to perfection.

Other sports-type silks include silk foulards, silk seersucker and striped silk crepe. White silk serge, silk pique, silk jersey, parachute silk, checked silk sailcloth, also plain or plaid silk crepe are of intriguing interest. It is well to familiarize oneself with these new silks, in order to buy intelligently and acquire clothes "you love to wear."

Hand-Knit Silk Ensembles Are New Fashion Offering

Important collections show a number of hand-knit silk ensembles. Anny Blatt, first to create a hand-knit evening gown, has launched a hand-knit silk wedding gown and a fine, sheer hand-knit veil. Her collection also includes knitted silk suits, dresses and blouses in daytime, cocktail and dinner styles.

New pure silk yarns have been developed for both hand-made and machine-knit costumes. They are easy to work with, wash like lingerie and are dressy enough for afternoon and bridge wear. The new silk yarns, which are the latest word to knitters, come in a wide range of colors both dark and light.

To Match Prints

One of the new ideas that Paris is advancing is that of porcelain jewelry painted to match the printed dresses with which it is worn.

Printed Trimmings for Elegant Daytime Frock

Pattern No. 1851-B

The smartest of the new dresses are those in a single color with flashes of printed silk to trim them. This design is one of the best, made of blue cloxy silk and trimmed with a print in red and blue on a white ground. The front of the bodice has a row of buttons extending to the hipline and a collar of the printed silk. A slender, paneled skirt is split up the front to show a printed strip that is attached underneath. Three-quarter sleeves are gathered into fitted cuffs in harmony with the collar. And by all means don't overlook the novelty shoulder and hip yoke.

Barbara Bell Pattern No. 1851-B is available for sizes 14, 16, 18, 20; 40 and 42. Corresponding bust measurements 32, 34, 36, 38, 40 and 42. Size 16 (34) requires 4 1/4 yards of 30-inch fabric with 1/4 length sleeve.

What SHE TOLD WORN-OUT HUSBAND

She could have reproached him for his fits of temper—his "all in" complaints. But wisely she saw in his frequent colds, his "fagged out," "on edge" condition the very trouble she herself had whipped. Constipation! The very morning after taking NIT (Nature's Remedy), as she advised, he felt like himself again—keenly alert, peppy, cheerful. NIT—the safe, dependable, all-vegetable laxative and corrective—works gently, thoroughly, naturally. (Laxatives that stimulate the inactive tract to complete, regular functioning. Non-habit-forming. T. B. PREVENTION

Chadbourne's on Tuesday. The talk was given by Miss T. Golden, worker in this field, who was introduced by Mrs. Henri Salz, president of the club.

Miss Golden told of the fluorescence detection of the presence of tuberculosis at examinations held in high schools of the East Bay under the direction of sixteen doctors trained in the work through scholarships at the Oakland clinic.

The campaign against tuberculosis in the adolescent child where

it is most frequently found in its preventable stages is financed by the funds received from the sale of Christmas seals and is accessible to all high schools in Alameda county.

A motion was passed that the board of Washington Union high school be asked to consider the giving of such an examination in the local high school.

Miss Beatrice Arthur and Miss D. Kimberley of the children's department and Mrs. Bernice Ellis, new family worker for the county were also present.

Mrs. A. A. Hatch, sewing chairman, reported eight pairs of shoes and 81 garments turned in since the last meeting.

DIONNE QUINTS IN BIG PICTURE AT NILES THEATER

The four-star picture that has made a sensation wherever shown, the Dionne quintuplets in "The Country Doctor," with Jean Hersholt, is the feature coming to the Niles theater Sunday, remaining over for the Monday performance. This picture is the greatest success of the year and has been widely acclaimed.

Tonight will be the last chance to see Bing Crosby, Ethel Merman and Charles Ruggles in "Anything Goes." Big preparations have been made for amateur night Saturday.

Next Wednesday, as usual, will be cash night, with lots of excitement. The feature for Wednesday and Thursday will be Warner Baxter in "The King of Burlesque"—a picture of the show business, with lavish sets, a thrilling story, music and dancing.

Fred: "There's a motorcycle chasing us. Is it a traffic cop?"
Ned: "No, worse than that. It's the guy who collects the install-
ments on this car."

Cop: "How would you like rid-
ing in a patrol wagon?"
Lizzie Giggles: "Oh, it might do
in a pinch."

Mrs. F. A. McGowan's Cake Recipe Offered

Mrs. Frank McGowan has taken
numerous prizes with her cakes.
She is noted for her cookery, es-
pecially for her cookies which she
makes for public occasions.

Here is her recipe for choco-
late fudge cake which has won
her two prizes.

INGREDIENTS

2 cups sugar.
¾ cup butter or other
shortening.
2½ cups flour.
1½ cup buttermilk.
1 tsp soda.
2 squares melted chocolate.
2 eggs, yolks and whites to
be beaten separately.

Cream the butter and sugar. Add
the egg yolks. Add the chocolate.
Add the milk. Add the flour and
soda sifted. Bake in a 350 degree
oven. The recipe makes three
big layers.

The cake can also be made with
sweet milk, in which case, 2 tea-

spoons full of baking powder
should be substituted for the soda.
Here is the frosting which goes
with the cake:

1 package of powdered sugar.
2 heaping tablespoons or two
squares of chocolate.
¼ cube of butter.
3 tablespoons boiling water.
Milk or cream in sufficient
quantity to produce consistency
desired.

The recipe takes quite a bit of
stirring, the hot water giving a
boiled frosting effect.

being turned on. Theater attend-
ants rapidly extinguished the
blaze with chemicals but the fire
reflected on the screen and caused
members of the audience to dash
for the door. The Niles fire de-
partment arrived but was not
needed.

Spring Showing of New 1936 Gas Ranges Opens Throughout California

With the slogan "A corsage for your kitchen," the Spring Showing of 1936 models in gas ranges opens this Saturday throughout Northern and Central California, with local dealers of this community participating under the sponsorship of the Gas Appliance Society. An inspection of the new ranges of all makes and models reveals astonishing progress in both scientific construction and appearance. These new ranges are thoroughly modern in every respect, from their streamline design to the many automatic features which simplify cooking to the nth degree.

Those who have already viewed these new range masterpieces are enthusiastic in their praise and acclaim them the most beautiful of all household appliances. Experienced cooks, as well as those who are just learning are equally interested in the new range, both knowing it has taken all the risks from baking.

The experienced cook instantly recognizes that with one of these new gas ranges she can turn even her most conservative dishes into culinary triumphs and that the modern range will execute her commands with precise efficiency. To those less experienced in this fine art, the modern range is almost like an insurance policy with its many mechanical features to guard against the pitfalls of cookery in bygone days. The new gas range is almost like a cooking obot, doing practically every-

thing but mixing ingredients and serving the meal.

The oven heat control needs no introduction to most modern women who consider it one of the greatest aids to baking invented since the gas range itself. This control consists of a little dial located on the manifold of the range. It can be set at the exact temperature required in all modern recipes. The housewife may then go about other tasks knowing that this little silent servant will maintain constant vigilance, turning the gas off and on to keep the temperature indicated until the food is baked.

"Measured time" is another wonderful invention to give the housewife freedom. With this clock she can set the dial for the time she wishes her food to be removed from the oven and at the exact minute indicated an alarm sounds, reminding her to come back to the kitchen. The full automatic clock control will turn the gas on and off at any time indicated.

With this marvelous device the housewife may place her food in the oven in the morning, setting the clock for, say, three o'clock in the afternoon, at which time the gas will go on automatically and the food will cook until the time at which she has set the dial for the gas to go out. With such an automatic control there is no need for the housewife to come back to the kitchen throughout the entire day until she is ready to take the dinner from the oven, piping hot and ready to serve.

No Need to Suffer "Morning Sickness"

"Morning sickness"—is caused by an acid condition. To avoid it, acid must be offset by alkalis—such as magnesia.

Why Physicians Recommend Milnesia Wafers

Chewed thoroughly, then swallowed, they correct acidity in the mouth and throughout the digestive system and insure quick, complete elimination of the waste matters that cause gas, headaches, bloated feelings and a dozen other discomforts.

Milnesia Wafers come in bottles of 20 and 48, at 35c and 60c respectively, and in convenient tins for your handbag containing 12 at 20c. Each wafer is approximately one adult dose of milk of magnesia. All good drug stores sell and recommend them.
